

Dear Parents and Guardians,

As **Self-eSTEM** prepares for another exciting summer season, the health and safety of our campers and staff remains our top priority. We are committed to creating a fun and enriching environment while also taking necessary precautions to minimize the spread of illness, including COVID-19.

Health Screening:

- We kindly ask that you keep your child home if they are experiencing any symptoms of illness, such as fever, cough, sore throat, runny nose, or difficulty breathing.
- A daily health screening questionnaire may be implemented upon arrival at camp.

Hygiene Measures:

- Frequent handwashing with soap and water for at least 20 seconds will be encouraged throughout the day. Hand sanitizer will also be readily available in common areas.
- Camp staff will be diligent in cleaning and disinfecting surfaces regularly.

Communication:

- We encourage open communication with camp staff. Please inform us immediately if your child experiences any symptoms of illness during camp.
- We will keep you updated on any important health developments affecting camp operations.

We appreciate your cooperation in helping us create a safe and enjoyable summer camp experience for all.

For any further questions or concerns regarding camp health protocols, please don't hesitate to contact us.

Thank you,

The Self-eSTEM Team
