

Self-eSTEM

Digital & AI Literacy Programming

Are you ready to think big, create new ideas and pitch them like a pro?

Our 8-week after-school program is designed just for middle and high school students who want to explore where technology, innovation and entrepreneurship collide!

#WhereTheMoneyResides

Modeled after the Shark Tank TV show, you'll:

- Work with a team to solve real-world problems
- Design and build your own product idea
- Learn how to pitch your business to a panel of judges

Along the way, you'll gain confidence, digital skills and STEM knowledge to help you become the next generation of innovators and leaders!

No experience needed—just your creativity and curiosity!

Topics:

- Online safety
- Digital skills (Google Suite and AI tools)
- Generative AI and prompt engineering
- Business and market research
- Pitch presentations

Pitch Prizes:

1st place: \$500

2nd place: \$400

3rd place: \$300
